EDUCATION

- 2016-2022** **Ph.D. in Earth and Ocean Sciences**
University of Victoria, Victoria, Canada
Advisors: Stan Dosso, Francis Juanes
Thesis: Monitoring fish using passive acoustics.
- 2004-2007** **M.Sc. in Oceanography (with distinction)**
University of Québec at Rimouski, Institute of ocean sciences (ISMER), Rimouski, Canada
Advisor: Yvan Simard
Thesis: Automatic detection of whale calls and real-time implementation.
- 2001-2004** **B.Sc. in Acoustics, Signal Processing and Vibration**
Le Mans Université, Le Mans, France

SKILLS

- Science:**
- Digital signal processing, machine learning, automatic signal detection
 - Passive acoustic localisation
 - Underwater and airborne acoustic modeling (Bellhop, RAM, Cadna, CATT-Acoustic)
 - Acoustic noise measurements and analysis
 - Acquisition, decoding and processing of Automatic Identification System (AIS) data
 - Video processing
- Fieldwork:**
- Organisation and management of field measurement campaigns on water or on land
 - Design, deployment, retrieval, and maintenance of oceanographic moorings
 - Extensive experience with acoustic recorders (AURAL, AMAR, SoundTrap, Sound Devices)
 - Real-time passive acoustic monitoring
- Business and Administration:**
- Project management
 - Proposal/grant writing
 - Business development
- Computer:**
- Windows, Linux
 - Python, Matlab, R
 - Audition/Cool Edit Pro, Ishmael, Pamguard, Raven, Syrinx, SpectraLab
 - LaTeX, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

- Dec 2021 – Present** **Research Acoustician (NOAA Affiliate)**
*Passive acoustics group, Northeast Fisheries Science Center (Woods Hole, MA, U.S.A.)
Contracted through Integrated Statistics Inc.*

Selected projects:

- Development of deep learning algorithms to automatically detect minke whale calls in the North Atlantic.
- Monitoring of haddock in the Gulf of Maine using passive acoustics.

May 2007 – Sep 2021 Project Scientist, Acoustics

JASCO Applied Sciences (Victoria, British Columbia, Canada) from 2010 to 2021

JASCO Applied Sciences (Halifax, Nova Scotia, Canada) from 2007 to 2010

Responsibilities:

- Design, development, and testing of novel methods for passive acoustic monitoring of marine mammals (detection, classification, and localisation).
- Noise measurements.
- Soundscape analysis.
- Writing of scientific reports and articles.
- Preparation of systems for field trials and acceptance tests.
- Work at sea as lead scientist (average of 30 days per year).
- Project management.
- Business development, proposal writing.

Selected projects:

- *PortListen™ software (2015-2016)*: Co-creator of the PortListen™ web software that processes, visualizes, shares, and analyzes passive acoustic data in real-time on the web (see Mouy et al. 2015).
- *Port of Vancouver Listening Station (2014-2016)*: Leading the development of the software suite allowing to detect in real-time vocalizations from killer whale, humpback whale, Pacific white-sided dolphin, and fish, measure ambient noise, and automatically measure source level from vessels transiting in the Strait of Georgia.
- *Chukchi Sea Whale Migration Study (2007-2015)*: Developed novel methods for the automatic detection and classification of bowhead whales, belugas, and walrus sounds in the Chukchi Sea. Developed a technique allowing to localize walrus in 2D using a single hydrophone.
- *Sound Source Verifications (2007-2016)*: Measured and analysed sound from seismic exploration activities. Definition of safety zones for whales and pinnipeds based on American/Canadian regulations.

Oct 2006 – Mar 2007 Research Assistant

Department of Fisheries and Oceans Canada (Mont-Joli, Québec, Canada).

Responsibilities:

- Development of a noise measurement software.
- Analysis the temporal and spatial variability of the anthropogenic noise in the St. Lawrence Estuary.

Jun – Dec 2006

Research Assistant

Underwater acoustics lab, University of Québec at Rimouski (Rimouski, Québec, Canada).

Responsibilities:

- Analysis of passive acoustic data collected by the research program ArcticNet.
- Development of signal processing methods for the automatic detection of marine mammal calls in underwater recordings from the Arctic Ocean.
- Bibliographic review of DIFAR systems for passive acoustic localisation of marine mammals.

FIELDWORK EXPERIENCE

Selection of field trips since 2007 (out of approximately 30).

Nov. 2014 **Lead Scientist** onboard the M/V Inlet Provider. Deployment of 4 acoustic recorders off Prince Rupert, BC, Canada. Time at sea: 9 days.

Jul. 2013 **Lead Scientist** onboard the M/V Westward Wind. Deployment of 30 acoustic recorders in the northeastern Chukchi Sea, AK, U.S.A. Time at sea: 14 days.

Jul. 2013 **Shipboard Scientist** onboard the R/V Norseman 2. Real-time acoustic monitoring and tagging of walrus in the northeastern Chukchi Sea in collaboration with USGS. Time at sea: 14 days.

Apr. 2013 **Lead Scientist** onboard the M/V Ocean Royal. Deployment of 5 acoustic recorders in northern BC, Canada. Time at sea: 7 days.

- Oct. 2012** **Shipboard Scientist** onboard the M/V Westward Wind. Recovery of 30 AMAR acoustic recorders and deployment of 8 AURAL recorders in the northeastern Chukchi Sea, AK, U.S.A. Time at sea: 13 days.
- May. 2012** **Lead Scientist** onboard the M/V Dream Catcher. Real-time acoustic monitoring of seismic surveys and belugas in Cook Inlet, AK, U.S.A. Time at sea: 19 days.
- Apr. 2012** **Field Scientist** (land-based). Real-time monitoring of pile driving activities and deployment of oceanographic equipment (acoustic recorders, CTD, ADCP) in the Hudson River, NY, U.S.A. Time in the field: 23 days.
- Aug. 2009** **Lead Scientist** (land-based). Monitoring of pile driving activities in the Penobscot River, ME, U.S.A. Time in the field: 9 days.
- Aug. 2008** **Lead Scientist** onboard the R/V Alpha Helix. Sound source characterization of seismic airguns in the western Beaufort Sea, AK, U.S.A. Time at sea: 10 days.
- Jul. 2008** **Lead Scientist** onboard the M/V Annika Marie. Sound source characterization of 10 oil and gas support vessels off Prudhoe Bay, AK, U.S.A. Time at sea: 8 days.
- Jan. 2008** **Field Scientist** (land-based). Acoustic level measurements of explosive trenching activities in the Athabasca River, AB, Canada. Time in the field: 10 days.

Mouy, X., Delarue, J., Martin, B., and Hannay D., 2012. "Pacific Walrus vocal repertoire in the northeastern Chukchi Sea: call type description and relative proportion in time and space," 164th Meeting of the Acoustical Society of America, Kansas City, Missouri, 23 -26 Oct.

Mouy, X., Oswald, J. N., Delarue, J., Leary, D., Hannay, D., Martin, B. S., Mellinger, D. K., 2011. "Development of a grunt detector for monitoring walrus (*Odobenus rosmarus divergens*) in the eastern Chukchi Sea," 19th Biennial Conference on the Biology of Marine Mammals, Tampa, Florida, 27 Nov – 2 Dec.

OPEN-SOURCE HARDWARE AND SOFTWARE

FishCam: A low-cost open-source autonomous camera for aquatic research. CC-BY Attribution 4.0 International License. <https://osf.io/f6rwt>

FishSound Finder: Software for detecting fish sounds automatically. BSD-3-Clause License. <https://fishsound-finder.readthedocs.io>.

Ecosound: Python package to facilitate the analysis of passive acoustic data (in progress). BSD-3-Clause License. <https://ecosound.readthedocs.io>.

AWARDS / SCHOLARSHIPS

2022 - Best Student Paper Award in Animal Bioacoustics, Acoustical Society of America (Denver meeting).

2020 - Second place of the Three Minute Thesis (3MT) competition, University of Victoria.

2019 - UVic Graduate Award, University of Victoria.

2018 - Best Student Paper Award in Animal Bioacoustics, Acoustical Society of America (Minneapolis meeting).

2018 - Underwater acoustics and signal processing student travel award, Canadian Acoustical Association.

2018 - Recipient of a Trident underwater drone, Science Exploration Education Initiative.

2017 - UVic President's Research Scholarship, University of Victoria.

2017 - NSERC Postgraduate Doctoral Scholarship.

2016 - MITACS Accelerate fellowship.

2006 - Fessenden graduate student prize in underwater acoustics, Canadian Acoustical Association.

TEACHING / MENTORING

Supervised students

- Anne Smith (May-Aug 2022): College Supported Internship with NOAA. Research topic: Detecting haddock spawning activity in the Gulf of Maine using passive acoustics.
- Makana Terry (May-Aug 2021): Coop term with the University of Victoria and Ocean Networks Canada. Research topic: Analysis of active acoustic data from the Fish Acoustics Experiment in the Strait of Georgia.
- Madeleine Thompson (May-Aug 2021): Coop term with the University of Victoria and Ocean Networks Canada. Research topic: Analysis of video data from the Fish Acoustics Experiment in the Strait of Georgia.
- Courtney Evin (Sep-Dec 2019): Directed Studies and Research in Marine Biology (BIOL490D) at the University of Victoria. Research topic: Underwater acoustics and soundscape analysis.
- Emie Woodburn (Sep-Dec 2019): Directed Studies and Research in Marine Biology (BIOL490D) at the University of Victoria. Research topic: Underwater acoustics and soundscape analysis.

Mentored students

- Katrin Booy (2018): M.Sc., University of Manitoba.
- Kristen Kanes (2018): M.Sc., University of Victoria.
- Katrina Nicholich (2013): M.Sc., University of Western Washington.
- Barbara Koot (2012): M.Sc., University of British Columbia.

Committees

- Darienne Lancaster (present): Ph.D., University of Victoria (supervisory committee member).
- Madalina Ilinca Matei (2022), M.Sc., University of St. Andrews (external examiner).

Teaching

- Guest lecturer in the course Coastal Conservation (GEOG304) at the University of Victoria. Lecture title: "Passive Acoustics for Coastal Conservation". Jan 2019.

PROFESSIONAL ACTIVITIES

- Active member of the Acoustical Society of America (ASA):
 - Member of the technical committee on animal bioacoustics.
 - Member of the organizing committee for the ASA meeting in Victoria (2018) and Technical Program Organizer (TPO) for the virtual meeting Acoustics in Focus (2021).
 - Member of the ASA ANSI standards working group S3/SC1 WG07 on Acoustic Metadata for Passive Acoustic Monitoring (2017-present).

- Organized and chaired several special sessions at ASA meetings.
- Member of a working group led by Parks Canada to define ocean noise metrics in Canada (2018-present).
- Peer reviewer for the Journal of the Acoustical Society of America, Applied Acoustics, Marine Mammal Science, IEEE Journal of Oceanic Engineering, Scientific Reports, New Zealand Acoustics, HardwareX, and Endangered Species Research.

TRAINING

- 2019** - Scientific diving (theory), Canadian Association for Underwater Science.
- 2019** - Dive accident management, University of Victoria.
- 2019** - Oxygen first aid for SCUBA diving injuries, Divers Alert Network.
- 2018** - Foundations of Project Management, Mitacs.
